

Tat Binh Vu

Full-Stack Software Engineer

✉ binhhp20@gmail.com ☎ 0988401921 📍 Hanoi, Vietnam 🔗 binhvu.nimo.io.vn

SUMMARY

Full-Stack Software Engineer with 5+ years building scalable, high-performance web applications and enterprise solutions using C#/.NET, Node.js, React, and Next.js. Experienced in backend/API design, third-party SaaS integrations, and cloud infrastructure (Docker, CI/CD), with growing expertise in AI-powered automation. Focused on delivering reliable, maintainable solutions that meet business needs.

AREAS OF EXPERTISE

- **Programming Languages:** C#, TypeScript, JavaScript, HTML5/CSS3.
- **Full-Stack Development:** .NET, Node.js (Fastify), React, Next.js, Shopify Remix, PostgreSQL, SQL Server, Redis, RabbitMQ, Serilog.
- **Cloud & DevOps:** Azure, Docker, CI/CD Pipelines.
- **Software Architecture:** Microservices, API design, Event-Driven Architecture.
- **APIs & SaaS Integrations:** RESTful APIs, Microsoft Graph API, Exchange Online, Shopify & Wix App, JWT / OAuth2.
- **AI Tools & Engineering:** Claude Code, OpenCode, MCP Servers, Agent Harness, AI-driven automation.

PROFESSIONAL EXPERIENCE

Full-Stack Web Developer, Add-on Development 10/2021 – 08/2026 | Hanoi, Vietnam

- Built and maintained multi-tenant architecture and Microsoft Graph API integrations for Microsoft Teams and Outlook calendar/meeting synchronization using .NET 8 and React.
- Engineered secure JWT authentication, authorization systems, and Exchange Online sync workflows to manage calendar, user, and mailbox data.
- Designed responsive UI and state management workflows using React, TypeScript.
- Developed high-performance public REST APIs and event-driven architecture using RabbitMQ and Azure Event Hubs to improve system throughput and reliability.
- Set up Docker containers and automated CI/CD pipelines to streamline deployment and releases across cloud infrastructure.

Freelancer (Part-time) 12/2022 – 03/2026 | Hanoi, Vietnam

CÔNG TY TNHH CÔNG NGHỆ VÀ DỊCH VỤ ICOMMERCE VIỆT NAM

- Developed custom Shopify Apps and Wix extensions to streamline B2B/merchant workflows and improve operational efficiency.
- Built .NET backend APIs, PostgreSQL/SQL Server databases, and RabbitMQ messaging for multi-channel integration.
- Engineered a range of Shopify apps for storefront customization and B2B workflows (product swatches, direct COD ordering, price-hiding/quote automation) using .NET, Shopify Metafields, and Theme Extensions.
- Designed responsive storefront UI and widgets using React, TypeScript.

Fresher .Net Developer 12/2019 – 02/2021 | Hanoi, Vietnam

Công Ty TNHH Một Thành Viên Công Nghệ Và Truyền Thông 3i

- Developed user and profile management features, including data-entry forms and file export.
- Delivered assigned tasks efficiently while gaining hands-on experience in .NET application development.

EDUCATION

University of Transport and Communications, Bachelor of Technology 09/2017 – 09/2021 | Hanoi, Vietnam
